WORDS FROM OUR CEO

The digitalization of science breaks down borders for cooperation

“Scientific Center of Innovative Researches” OÜ was founded in Tallinn, Estonia on December 02, 2019.

The company is a privately owned commercial organization funded by the Article Processing Fee (APC) for open access articles, book publishing, consultancy and other services, advertising and other activities required by Estonian and European Union law.

Iryna Mihus
Company CEO
office@scnchub.com

Our company uses open source software Public Knowledge Project in our work, which allows to publish works of authors in open access.

We are very grateful to all the scientists who are ready to publish the results of their research on our company's web platforms.

The company will make every effort to meet your expectations. We hope that in the future we will work together. We are open to business and academic proposals and cooperation.

OUR TEAMS

Mykola Denisenko

Volodymyr Panchenko

Yaroslav Haleta

Yana Koval

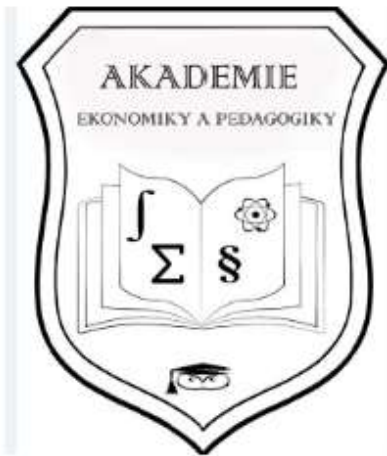

PARTNERSHIPS

“Scientific Center of Innovative Researches” OÜ is a member of and/or works with the following organizations/platforms:

VISION & MISSION

VISION STATEMENT

**Our mission is to make science
transparent and open**

MISSION STATEMENT

**“Scientific Center of Innovative
Researches” OÜ offers open access
platforms for the publication of articles,
conference proceedings and monographs.**

Iryna Mihus
Company CEO
office@scnchub.com

Scientific Journals

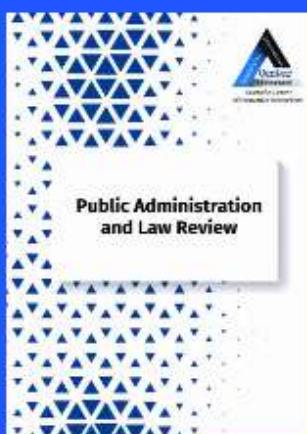

“**Scientific Center of Innovative Researches**” OÜ publishes peer-reviewed articles in scientific journals that are indexed and referenced in international databases.

ECONOMICS, FINANCE AND MANAGEMENT REVIEW

ECONOMICS, FINANCE AND MANAGEMENT REVIEW (EFMR) is a peer-reviewed journal that publishes economic research results in the form of scientific articles for worldwide publication.

PUBLIC ADMINISTRATION AND LAW REVIEW

PUBLIC ADMINISTRATION AND LAW REVIEW (PALR) is a peer-reviewed journal that publishes research on public administration and law in the form of scholarly articles for the world.

PEDAGOGY AND EDUCATION MANAGEMENT REVIEW

PEDAGOGY AND EDUCATION MANAGEMENT REVIEW (PEMR) is a peer-reviewed journal that publishes research results on pedagogical science in the form of scientific articles for worldwide publication.

Conferences

In 2020, the Scientific Center of Innovative Researches OU organized and held three scientific conferences

The conferences were attended by scientists, teachers, graduate students and students from different countries.

<https://conf.scnchub.com/>

Proceedings of the conference were published

<https://mono.scnchub.com/index.php/book>

The collection is assigned to doi.

Abstracts are indexed in Google Scholar, PKP and in various repositories.

During the conference, professional workshops were held:

- Digital management of scientific research (total 3 ECTS)
- Blockchain technology and its role in economic and social processes (total 3 ECTS)
- Corporate well-being as the energy of business (total 3 ECTS)

Conference participants received certificates of participation in the conference and workshops.

Monographs

In 2020, the Scientific Center of Innovative Researches OÜ published two monographs

The monograph is the result of multifaceted research on corporate management. In particular, the authors focused on the managerial, financial and psychological aspects of corporate governance, as they are the most vulnerable to the challenges and threats of the new reality. The key provisions of the study focus on the formulation of new scientific hypotheses, methods and tools for corporate management.

The publication is intended for researchers, civil servants, university professors and students, practitioners, and a wide range of readers interested in corporate management issues.

The monograph is the result of a multifaceted study of public administration. In particular, the authors focused on modern models of public administration, information technology in public administration, legal aspects of public administration because they are most vulnerable to the challenges and threats of the new reality. The main provisions of the study focus on the formulation of new scientific hypotheses, methods and tools of public administration.

The publication is intended for researchers, civil servants, university and university professors, practitioners and a wide range of readers who are interested in the problems of public administration.

Each of the monographs was indexed in Google Scholar, Crossref, PKP-index and repositories of different countries.
