Digitization of science breaks down the borders for cooperation

An "Scientific Center of Innovative Researches" OÜ was founded in Tallinn, Estonia on December 02, 2019.

The company is a privately owned commercial organization funded by the Article Processing Fee (APC) for open access articles, book publishing, consultancy and other services, advertising and other activities required by Estonian and European Union law.

Our company uses open source software Public Knowledge Project in our work, which allows to publish works of authors in open access. We are very grateful to all the scientists who are ready to publish the results of their research on our company's web platforms.

The company will make every effort to meet your expectations. We hope that in the future we will work together.

We are open to business and academic proposals and cooperation..

OUR TEAMS

Mykola Denysenko

Yaroslav Haleta

Volodymyr Panchenko

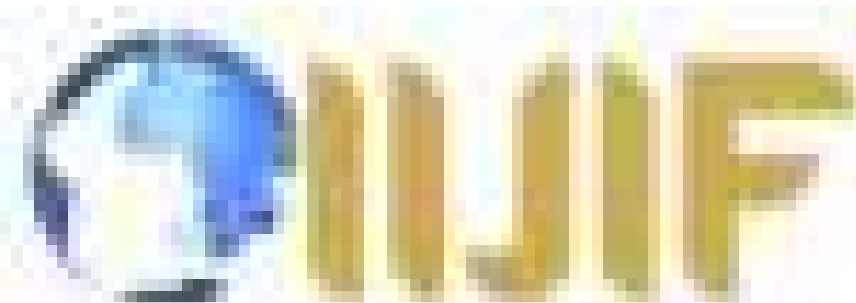

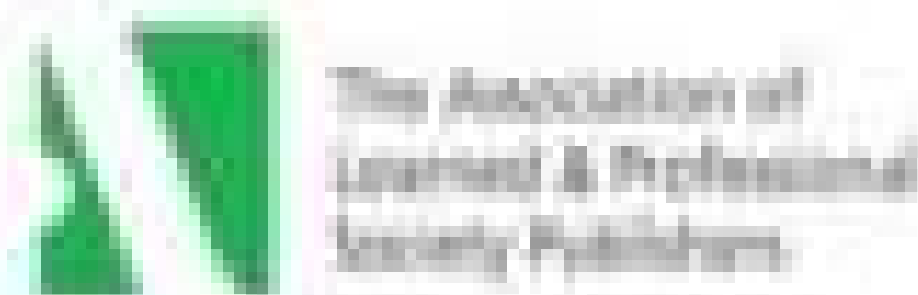

Yana Koval

PARTNERSHIPS

PARTNERSHIPS

“Scientific Center of Innovative Researches” OÜ is a member of and/or works with the following organizations/platforms:

VISION & MISSION

VISION STATEMENT

A Our vision is to provide scientists with the opportunity to publicly present the results of their research.

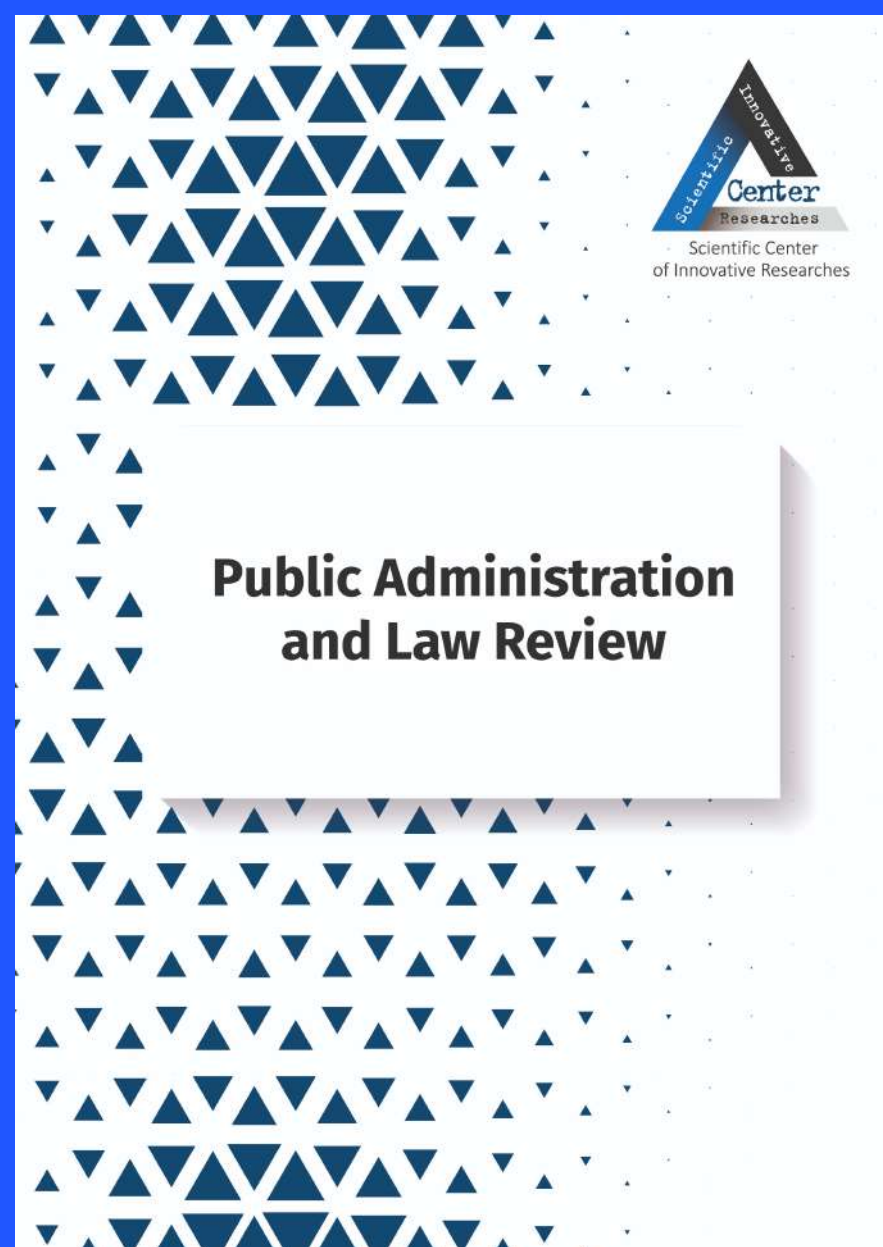

MISSION STATEMENT

A Our mission is to use the tools of open science for the transparency of the results of scientific research at scientific conferences, in open access scientific journals and monographs.

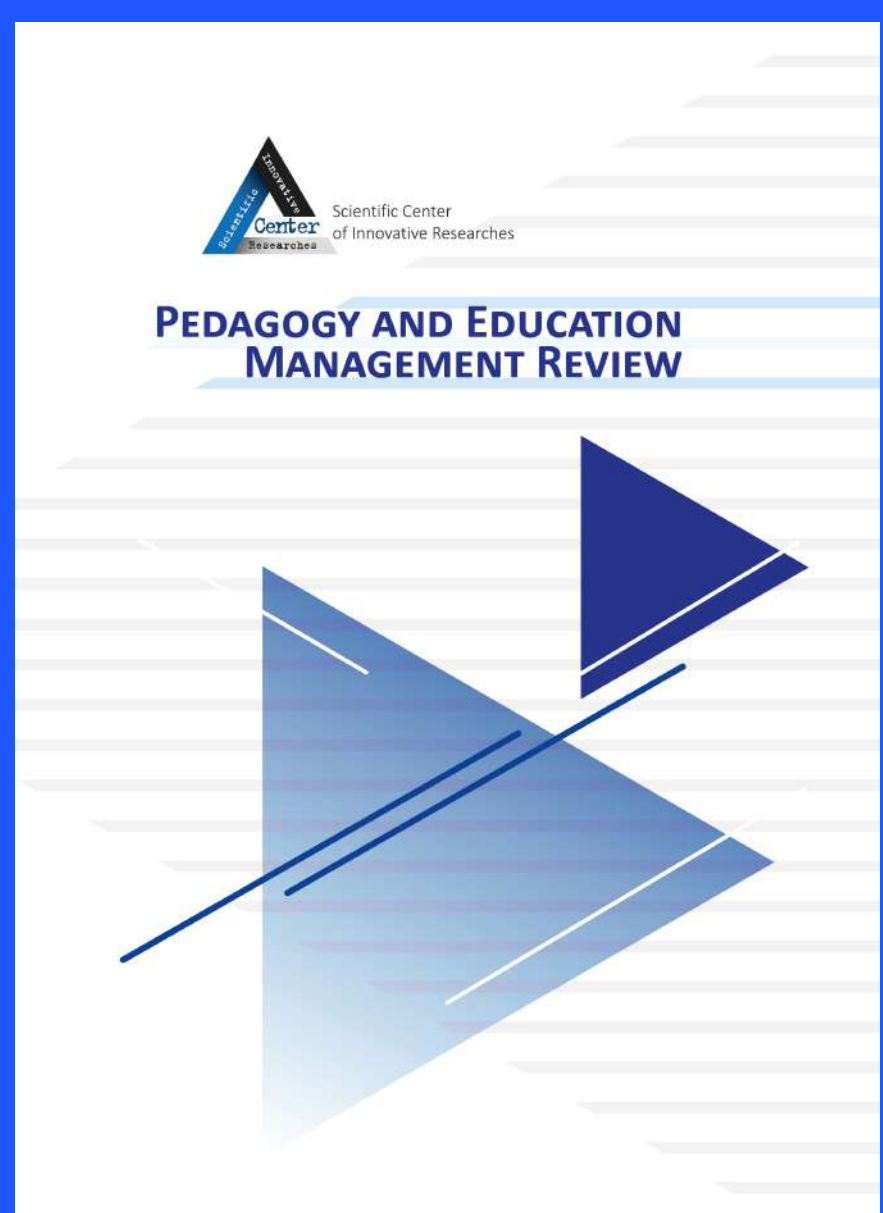

Scientific Journals

ECONOMICS, FINANCE AND MANAGEMENT REVIEW (EFMR) is a peer-reviewed journal that publishes economic research results in the form of scientific articles for worldwide publication.

PUBLIC ADMINISTRATION AND LAW REVIEW (PALR) is a peer-reviewed journal that publishes research on public administration and law in the form of scholarly articles for the world.

PEDAGOGY AND EDUCATION MANAGEMENT REVIEW (PEMR) is a peer-reviewed journal that publishes research results on pedagogical sciences in the form of scientific articles for worldwide publication.

Conferences

In 2021, the “Scientific Center of Innovative Researches” OÜ organized and held three international scientific conferences.

International conferences were attended by students, postgraduates, researchers and representatives of business and state authorities from different countries of the world.

During the conferences, the participants took part in workshops:

- "Digital management of scientific research" (total 6 ECTS);
- "Blockchain technology and its role in economic and social processes" (total 6 ECTS)

Monograph

In 2021, “Scientific Center of Innovative Researches” OÜ published a monograph

In the monograph, the theoretical and practical aspects of developing and improving the functioning efficiency of the poultry industry enterprises have been considered. The economic essence of the investigated concepts - "competitiveness" and "strategy of competitive advantages" – has been clarified. A systematic approach to the definition of the "key competency" category is suggested, the methodology to assess the activity results has been provided.

A retrospective analysis of the poultry product market operation has been carried out, taking into account Ukraine-wide trends of development. The main directions to increase the operational efficiency of poultry meat processing enterprises have been suggested, in particular, the methodological grounds for creating a territorial and production cluster have been substantiated. Suggestions as for the implementation of integral efficiency indicator in the poultry production have been formulated. Prospects for the development of poultry meat processing enterprises have been outlined.

Research project

In 2021, “Scientific Center of Innovative Researches” OÜ continued to work on the ranking of open science in universities, which it plans to present in 2022.

04/02/2022

ANNUAL REPORT 2021

"Scientific Center of Innovative Researches" OÜ is grateful to all researchers for their trust and cooperation.

We invite you to cooperate!
